Differentiated service delivery (DSD) roadmap for HIV Research for Prevention (RFP) 2021

Satellites

- [How have digital health technologies helped oral PrEP delivery for key and vulnerable populations during the COVID-19 pandemic and beyond?](#) SA12, Wednesday 03 February, 12:15 - 13:45 (UTC)
- [Bringing PrEP to the people: Democratizing access to PrEP through differentiated delivery before, during, and after COVID-19](#) SA17, Thursday 04 February, 12:15 - 13:45 (UTC)
- [Optimizing the delivery of HIV prevention services for maximum impact and sustainability: the Blantyre Prevention Strategy](#), SA06, Thursday 28 January, 12:15 - 13:45 (UTC)

Sessions

- [It's about people: Prevention in the real-world](#), PL03, Wednesday 03 February, 14:00 - 14:45 (UTC), plenary
 - Beginning with the end in mind: What we (think we) know about prevention user preferences, Ram Prasad, FinalMile Consulting, India
- [One-stop shopping: products, pathways and people](#), SY10, Thursday, 4 February, 16:15-17:15 (UTC), symposium
 - Lessons from the Tangerine Clinic: Integrated and key population led services for transgender people, Rena Janamnuysook, The Thai Red Cross AIDS Research Centre, Thailand
- [Reframing adherence](#), SY05, Thursday, 28 Jan, 16:15-17:15 (UTC), invited speaker session
- [Implementation, interventions, impact](#), OA21, Thursday 04 February, 17:30 - 18:30 (UTC), oral abstract session
 - Peer-distributed HIV self-test kits to increase demand for HIV prevention and care services in rural KwaZulu-Natal, South Africa: a three-armed cluster-randomised trial comparing social-networks versus direct delivery, Maryam Shahmanesh, University College London, United Kingdom
- [PrEP is here, considerations to achieve continued use](#), OA11, Thursday, 28 Jan, 17:30-18:30 (UTC), oral abstract session

Posters

[Building public-private partnerships for pharmacy-based PrEP delivery in Kenya: willingness to collaborate among PrEP and pharmacy providers](#), abstract 1183

[Covid-19 non-pharmacological public health response: Adapting virtual support to optimize peer \(Thetha Nami\) delivery of HIV prevention and care to adolescents and young adults in rural KwaZulu-Natal](#), abstract 949

[Design of a care pathway for pharmacy-based PrEP delivery in Kenya: results from a collaborative stakeholder consultation](#), abstract 755

[HIV status neutral community delivery of HIV pre-exposure prophylaxis to young men and women in rural KwaZulu-Natal: a pilot](#), abstract 1004

[Identifying critical attributes and attribute-levels for a discrete choice experiment on oral pre-exposure prophylaxis \(PrEP\) delivery among young people in Cape Town and Johannesburg, South Africa](#), abstract 1182

[Number of training scenarios required to achieve competence in PrEP delivery for adolescents: a standardized patient actor intervention in Kenya](#), abstract 1269

[Peer-distributed HIV self-test kits to increase demand for HIV prevention and care services in rural KwaZulu-Natal, South Africa: a three-armed cluster-randomised trial comparing social-networks versus direct delivery](#), abstract 912

[Preferences for PrEP formulations and service delivery: results from qualitative in-depth interviews with transgender women in three South African cities](#), abstract 840
