Bringing PrEP to the people: Democratizing access to PrEP differentiated delivery before, during, and after COVID-19

Co-chairs: Kimberly Green (PATH); Jessica Rodrigues (AVAC); Anna Grimsrud (IAS)

1. Welcome and session introduction: Why differentiated PrEP?

Kimberly Green, PATH

2. Setting the scene: Where is PrEP headed?

Jessica Rodrigues, AVAC

3. Video perspectives: What do people want when it comes to PrEP?

4. Differentiated PrEP in practice:

- Mobile PrEP: Diversifying PrEP delivery in Kenya to reach adolescent girls and young women *Daniel Madiang', PATH*
- Next-generation MSM-led PrEP services in Vietnam *Quan An Ho, G-link Social Enterprise*
- Peer-supported PrEP: Sisters with a Voice in Zimbabwe *Primrose Matambanadzo, Centre for Sexual Health and HIV/AIDS Research*
- Community PrEP: Differentiated PrEP to reach key populations in Thailand *Nittaya Phanuphak, Institute of HIV Research and Innovation (IHRI)*

5. Moderated panel and Q&A: Scaling PrEP DSD and implications for oral PrEP and new HIV prevention products in the pipeline

Co-moderators: Kimberly Green; Jessica Rodrigues

6. Key takeaways and closing

Anna Grimsrud, IAS; Nittaya Phanuphak, IHRI

PrEP use has accelerated but still far from the global 2020 target

More than 925,000 people took PrEP at least once by 2020

PrEP Initiations by Country, December 2020

Discussion framework: Differentiating, simplifying, and de-medicalizing PrEP

De-medicalize

Different steps and elements of PrEP offered by lay providers or through health care worker task-shifting (e.g., from doctors to nurses)

Simplify

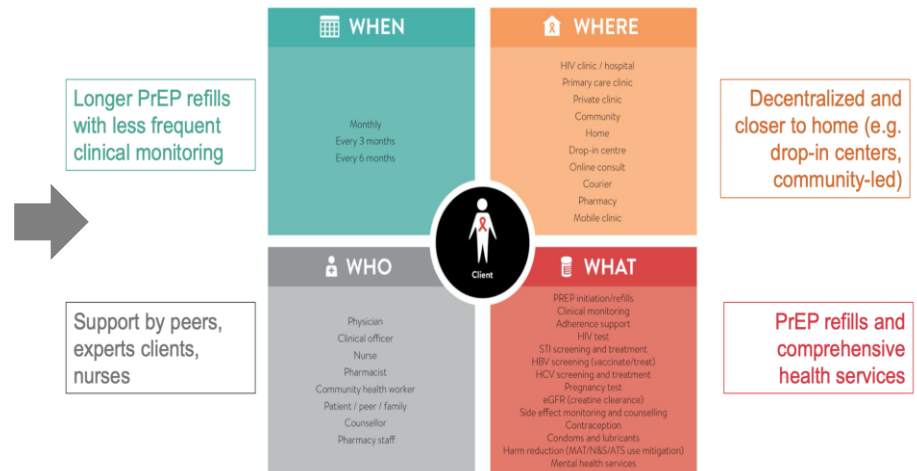

Finding less complex ways to deliver care, promote increased access, lower cost, while retaining efficacy and quality

Differentiate

Adapting the when, where, who, and what based on client preferences, needs, efficiencies, and other factors

Building blocks for differentiated PrEP

Adapting the when, where, who and what
