

THE CQUIN LEARNING NETWORK

ZIMBABWE TEAM FEEDBACK

PRIORITY AREAS FOR DSD 2018

GOAL: Scaling up of the number of health facilities offering at least one DSD model from 45% to 75%

- Coordination
 - Strengthen coordination between IPs and MoH (TWGs): leverage of resources
- M and E system for DSD
 - Finalise DSD indicators for reporting at national level
 - Standardise reporting from IPs for national level
- Operations research
 - Four (4) research areas identified so far
 - To identify other priority areas for research

PRIORITY AREAS FOR DSD 2018 (2)

- Peer learning platforms for DSD
 - Review of learning sites and dissemination of implementation experiences to other provinces at a national level
 - Support peer learning at existing platforms to share best practices in DSD
- Demand Generation
 - Update HIV treatment literacy manual
 - Sensitisation of PLHIV on DSD models (media, meetings etc.)
 - Development and distribution of IEC materials

LEARNING FROM OTHER MEMBERS IN CQUIN

- Knowledge management
 - Raise awareness and market Webinars, (E – list) etc
 - Virtual meetings
 - Documentation and dissemination of best practices
- South to south visits
 - Lessons learnt from migration from APMR to CMIS with the inclusion of DSD indicators – Swaziland
 - Durban Trip to CAPRISA for DSD for people at High Risk

The image features a blue gradient background with white circuit-like lines in the corners. The lines consist of straight segments and small circles, resembling a network or data flow diagram. The text "THANK YOU" is centered in a white, bold, sans-serif font.

THANK YOU
